

ZHE WANG

👤 [zhewang2001.github.io](https://github.com/zhewang2001) ✉ zhe36@illinois.edu 🌐 github.com/zhewang2001

Education

University of Illinois at Urbana-Champaign
Siebel School of Computing and Data Science

Aug 2024 – May 2026
Illinois, United States

- Master of Science in Computer Science
- **Advisor:** Lingming Zhang

Tsinghua University
Weiyang College

Sep 2020 – Jun 2024
Beijing, China

- Bachelor of Science in Mathematics and Physics
- **Advisor:** Zhiyuan Liu

Research Interests

- **AI for Code:** to build and evaluate AI programmers to propel developer efficiency and improve software quality.
- **Transfer Learning:** to have a more fundamental understanding of the behavior of large language models (LLMs), enabling their effective adaptation to knowledge-intensive and everyday scenarios.

Publications

- Yuxiang Wei, **Zhe Wang**, Jiawei Liu, Yifeng Ding, Lingming Zhang. “*Magicode: Empowering code generation with oss-instruct*” ICML 2024. (<https://arxiv.org/abs/2312.02120>)

Research Experiences

Magicode: Empowering Code Generation with OSS-Instruct

Oct 2023 – Dec 2023

Research Intern at Illinois at Urbana-Champaign, Supervised by Prof. Lingming Zhang

Beijing, China

- Aim to mitigate bias in LLM-generated synthetic data by empowering models with diverse, controllable open-source references.
- Introduced **Magicode**, a series of fully open-source LLMs for code, that can outperform all evaluated LLMs with less than or equal to 16B parameters while having no more than 7B parameters.
- Proposed **OSS-INSTRUCT**, a new approach to enlighten LLMs with open-source code snippets for high-quality data synthesis, which was adopted by *Meta Llama 3.1*, *Google CodeGemma*, and *IBM Granite*.
- Achieved more than 2k stars on Github and was on Github trending.

Technical Skills

Languages: Mandarin (Native), English (TOEFL 105: **Speaking 25**), Japanese Beginner

Programming Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Eclipse, Google Cloud Platform, Jupyter Notebook

Technologies/Frameworks: Linux, GitHub, Huggingface, Tensorflow, Pytorch
